

PET RECYCLING IN ANNIVIERS:

Change in the way PET bottles are collected in Anniviers

→ Starting 1 July 2019, collection of PET bottles will only happen at points of sale.

For many years, the Municipality of Anniviers committed to recycling by proposing numerous collection points dedicated to beverage bottles made of PET.

Unfortunately, despite several reminders, the Municipality is noting a too large number of foreign bodies collected amongst PET beverage bottles since taxed rubbish bags have been introduced on 1 January 2018. Consequently, this environmentally-friendly recycling process is endangered and the virtuous circle cannot be guaranteed without the relentless work of the municipality employees anymore.

It has been decided to leave it to professionals to recycle PET, as advised by the law (article 7 paragraph 1 of the Ordinance on Beverage Containers). Therefore, municipal containers will be removed from the public space and PET bottles will have to be returned directly to the points of sale.

WHY COLLECT PET?

PET recycling means nature protection:

- REDUCES CO2 EMISSIONS
- SAVES ENERGY
- REDUCES RUBBISH VOLUME
- HELPS MAINTAIN CLEANLINESS
- SPARES NON-RENEWABLE RESOURCES
- Actions led by PET-Recycling Schweiz allow the production of new bottles from used beverage bottles in PET.

IN CASE OF DOUBT, THREE QUESTIONS

- Is it a bottle?
- Is the bottle made of PET?
- Did it contain a beverage?
- If the answer to all of these questions is yes, this bottle can be thrown away with PET.

**PET
BEVERAGE
BOTTLES
ONLY**

**⚠ CAREFUL : FOREIGN
BODIES PUT THE PET CYCLE
INTO DANGER**

Anniviers recycling centre – Ayer PLACE CALLED « GRANDS PRAZ »

New opening hours: starting 1 July 2019
